**This \$39.75 Porcelain-Lined Leonard Cleanable Refrigerator**

Has Been Awarded to Mr. Orren F. Hunter of 1537 Monroe Street N.W., the Winning Answer Being as Follows:

"Every housewife should own a Leonard Cleanable Refrigerator. It lightens her work, keeps food fresh and sweet and is economical to use. The interior is porcelain fused on steel, with no seams at bottom nor metal strips at joints. This porcelain will not crack, peel or become discolored—it is easily cleaned and absolutely sanitary."

"The exterior is of quartered oak, finely finished. The insulation, by means of twelve separate walls, is perfect. All material and every detail of construction is the best. The air circulates freely, and the drainage is scientifically correct."

(Signed) "ORREN FRANKLIN HUNTER, 1537 Monroe st. n.w., Washington, D. C."

**Description of the Prize Refrigerator**

The first prize, above mentioned, is a Porcelain-lined Leonard Cleanable Refrigerator, exactly like this illustration. It is 46 inches high, 33 inches wide and 21 1/4 inches deep. The outside of this refrigerator is of solid oak, the panels of genuine quartered oak, round corners, and finished with a high rubbed polish. This refrigerator has twelve separate cold-retaining walls, three-quarters of an inch of "dead" air space between the walls and the interior is lined with pure white porcelain.

The porcelain used in the Leonard Refrigerator is not pottery or tile or glass. The porcelain is fused onto sheet steel at a temperature of 2,500 degrees, and actually becomes a part of the metal. Leonard porcelain linings are made without cement and will never break, crack, peel off, or craze, rust nor tarnish. With a damp rag you can wipe it as clean as a china dish.

The ice chamber of this refrigerator is extra large, holding 100 lbs. of ice. The air circulation, down from the bottom of the ice chamber and up through the other side all the way to the top—prevents uniform cold temperature at all times, consuming very little ice. The price of this refrigerator is \$39.75. We have other styles, lined with porcelain, from \$15.00 up, less 10 per cent discount if paid for within 30 days.

We Are Exclusive Agents for the Sale of Leonard Cleanable and Grand Rapids Refrigerators.

**The Second Prize Has Been Awarded to Mrs. Helen E. Fox, 914 R Street N.W.**

"Every housekeeper should have a Leonard Refrigerator, because it is pre-eminently the best, and heads the list for durability, economy, simplicity and healthfulness. DURABILITY—because made of the very best material and of superior workmanship. ECONOMY—because it needs less ice than other refrigerators, and yet every part is equally chilled. SIMPLICITY—because it can be thoroughly cleaned by a child. HEALTHFULNESS—because of the free circulation, allowing no odors to taint the food."

(Signed) HELEN E. FOX, 914 R St. N.W.

The Winners of the 50 Third Prizes Will Be Notified by Mail Monday.

**Special Sale of Leonard Cleanable and Grand Rapids Refrigerators.**

The Leonard is the highest grade refrigerator made. Its first cost is perhaps slightly higher than inferior makes, but look at the difference in results obtained. It's worth more than the slight difference in price. The Leonard is easily kept sweet and clean, maintains the lowest possible temperature; the free circulation of dry air preserves the food from odors, and the small amount of ice it uses will soon save more than its cost for you.

Notice the following reductions offered for this week only:
